

LIFE MADE COMFORTABLE

BREEZE LOUNGE

DESIGN BY STRAND+HVAASS

The Breeze range is designed by Strand+Hvass. The design duo comprises two recognised Danish designers, Christina Strand and Niels Hvass. The Breeze range is designed as lounge and dinner furniture. Each item has the same aesthetic design expression and can be used anywhere and in any outdoor space.

There is distinctive elegance and lightness about the sculptural transparency of Breeze, which is reminiscent of a gentle summer wind. Cane-line Weave® wickerwork, which is unique to Cane-line, lends delicacy and transparency to the range. The material moulds itself to body contours and movements to create extremely comfortable furniture.

The ultra-lightweight Breeze range is easy to move. Each can stand alone or be mixed with other Cane-line furniture.

The durable material is UV-resistant and requires minimal maintenance.

Cane-line Weave® is specially developed to withstand climate conditions all over the world. The material will retain its colour and shape for many years.

Full Breeze range illustrated on the back.
