We have managed to make our spreader bar hammocks as comfortable as the classic Brazilian hammock with no bar.

We achieved this by firstly using a special, amazingly soft and flexible thread in a high quality thickness (350 g/m^2) , and secondly by making the material significantly wider than the bar: 140 cm material and 100 cm bar. This provided for a wonderful arch in which one can hang comfortably and securely!

Product data:

I O		kg kg	kg
ca. 310 x 100 cm	ca. 210 x 140 cm	max. 150 kg	ca. 2,4 kg

- Material: 85% cotton (recycled), 15 % polyester

- Packaging: Transparent bag with carrying handle and product flyer inside

(see illustration above)

- Can be combined with: Frames: Olymp, Apollo, Madera, Vario, Sumo Grande, Sumo

Accessories: Easy+, Jumbo, Smartrope, Microrope

- Customs tariff number: 63069000000

- Country of origin: Brazil

- Individual pack dimensions: approx. 830 x 130 x 60 mm
