CUSTOM MADE

We offer to produce our models custom made in your choise of frames and weave combinations. Please contact us for further information about minimum quantities and time of delievery.

INTRODUCTION

We are proud to introduce a new collection, which is based on a new exciting material that offers possibilities and expressions for our existing models.

The new material AluRattan consists of a strong aluminium frame woven with ArtFibre.

The material is maintenance free and can withstand all weather conditions. This means that original rattan models previously only suitable for indoor use now can be used in the garden, on the terrace or the balcony.
