

A white, modern armchair with a perforated backrest and seat, and a simple metal frame. It is positioned on a wooden deck. The background is a vast, calm blue sea under a clear sky. To the left, there are some green leafy branches. The overall scene is bright and airy, suggesting an outdoor setting.

DESIGN BY SCHOLTEN & BAIJINGS

HAY

13EIGHTY

HAY's 13Eighty chair designed by Dutch designers Scholten & Baijings is aptly named after the number of tiny holes in the moulded polypropylene shell. These perforations create a characteristic aesthetic, where transparency and a play of light and shadows add to the chair's expression, while the variations in the sizes of the holes bring a sense of movement to the visual appearance. They also have a functional use in draining rainwater off when the chairs are used outdoors. The chair features steel legs with a weather-resistant coating to make it suitable for outdoor use. It has a stackable design and is available with or without armrests.
