THE ESSENCE OF TEMPUR®

TEMPUR® MATERIAL IS LIKE NOTHING ELSE ON EARTH

TEMPUR® Material is unlike anything on Earth. The moment you lie down feels like pure magic as the cells instantly respond to your body's shape, weight and warmth, precisely adapting and aligning to every inch of you. Its proven pressure relief gives your body total comfort and support. It can also help to reduce tossing and turning. It absorbs motion from your partner so you are less likely to disturb one another. How TEMPUR® Material works is complex, but what it does is simple: help you to get that truly restful sleep.

BORN FROM SPACE AND PERFECTED FOR SLEEP

The only mattress and pillow brand recognised by NASA and certified by the Space Foundation. At the heart of each mattress and pillow we create is our iconic TEMPUR® Material, born from NASA technology. In the late 60s, NASA scientists invented a completely new material used onboard the Space Shuttles. Our founders realised the material's unique potential. So they took that original NASA invention and spent years perfecting it into TEMPUR® Material and created the world's first viscoelastic mattress and pillow.
